

N-computing issues and solutions

- N-computing Vspace License Issue

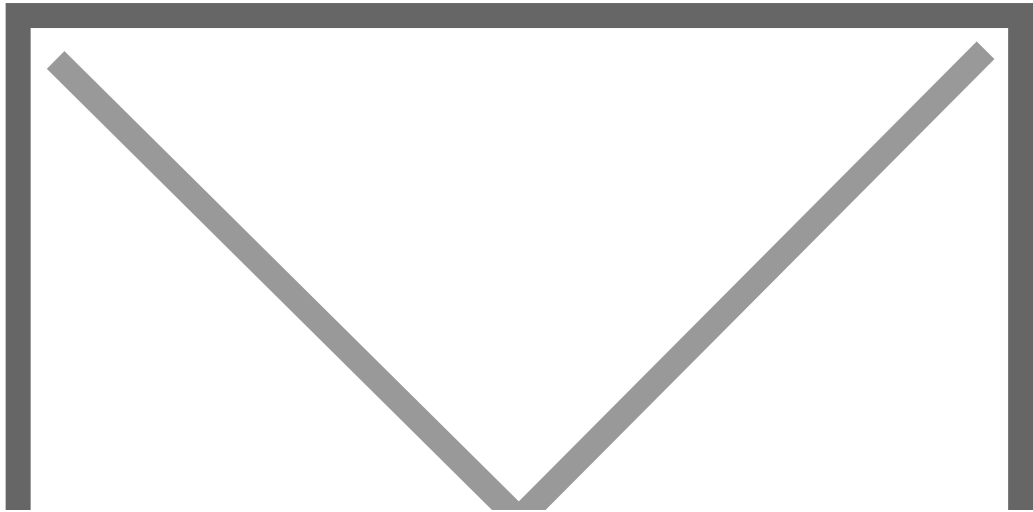

Solution: If you face above mentioned issue please following steps:

1.

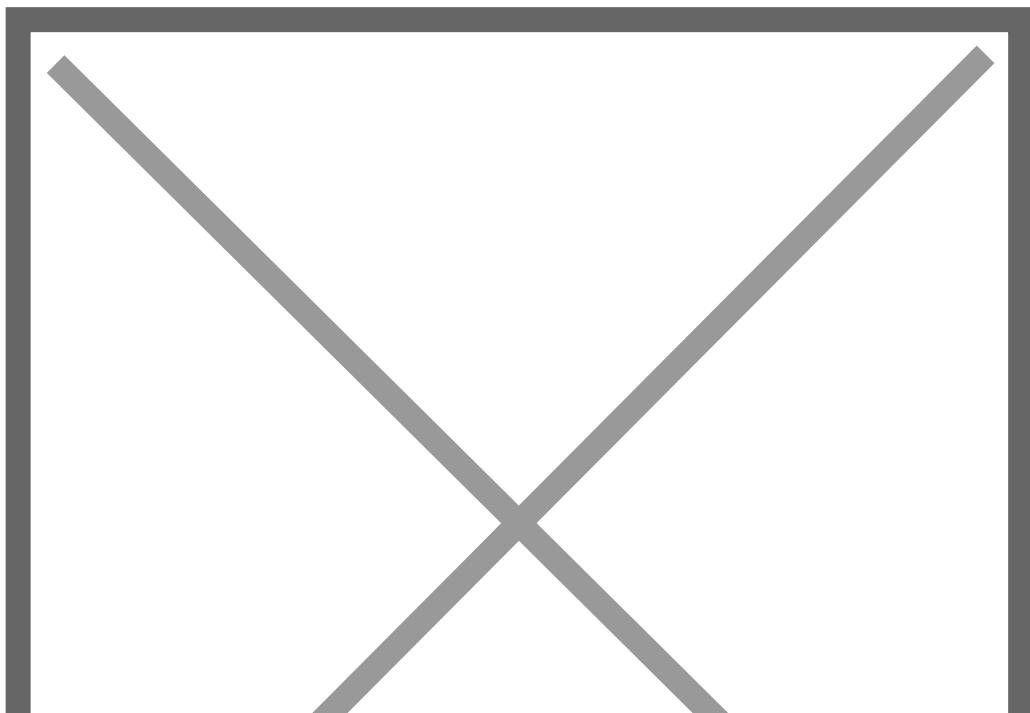

You will require “vSpace-license-setup.exe” with the respective version file.

Double click on “vSpare_Server_Win_x64_-_setup.exe” executable file.

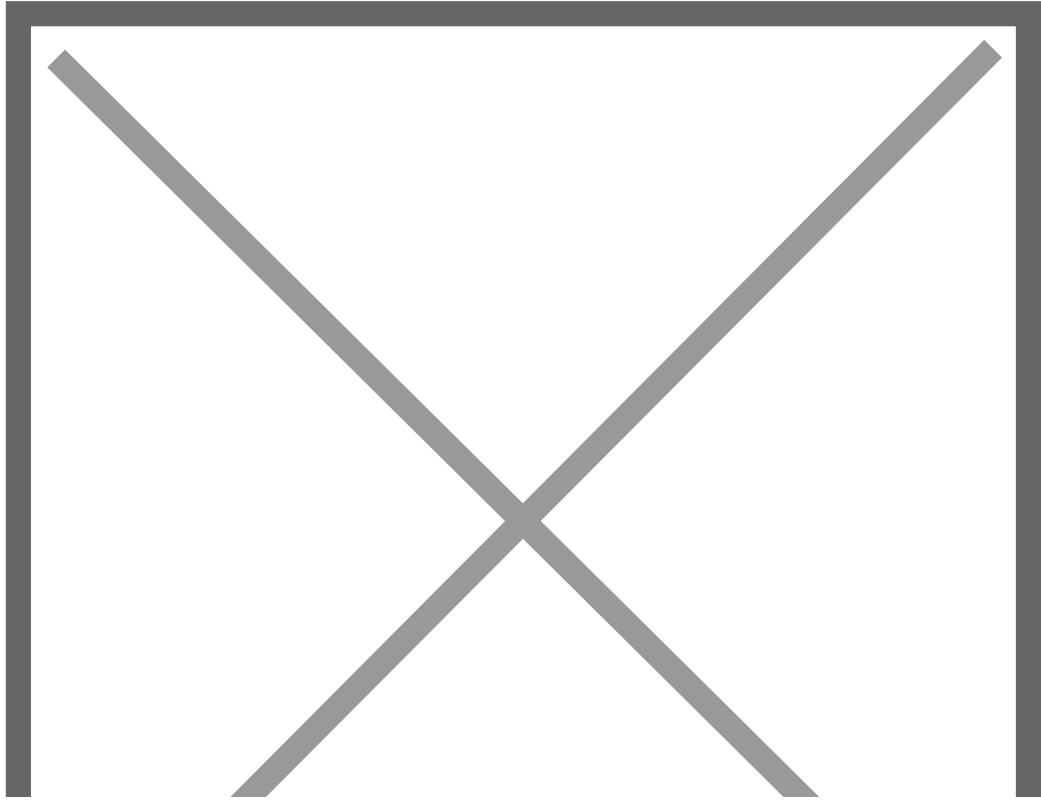

2.

Click on 'Next'

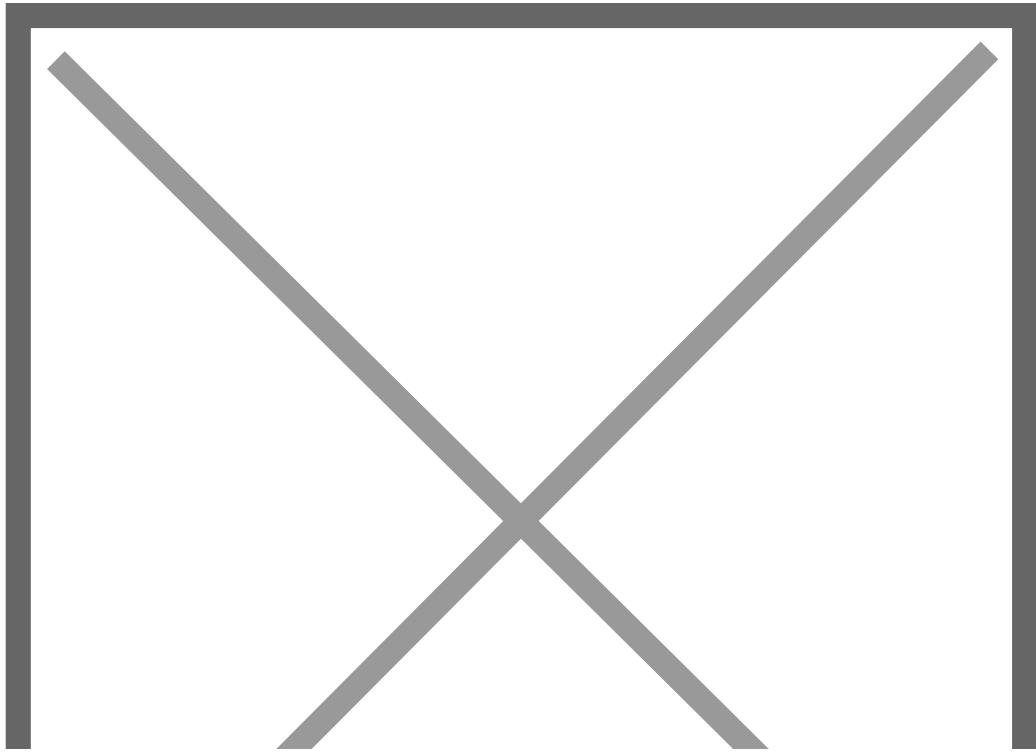

3.

Again click on 'Next'

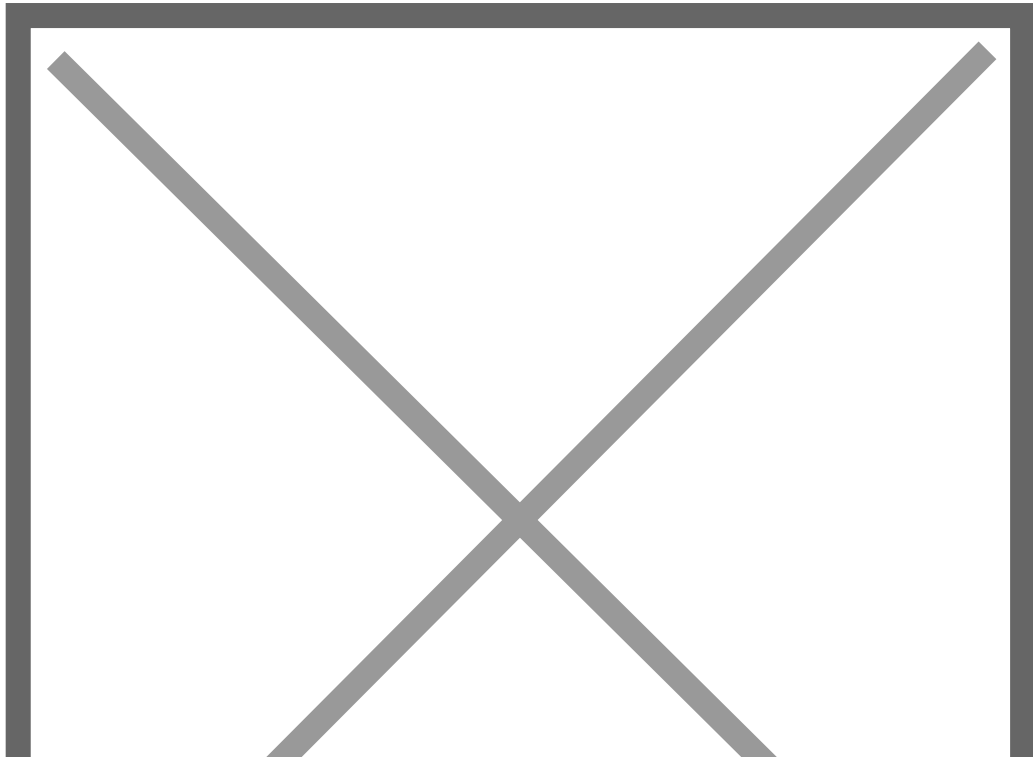

4.

Check mark on the radio button 'I Agree' then click 'Next'

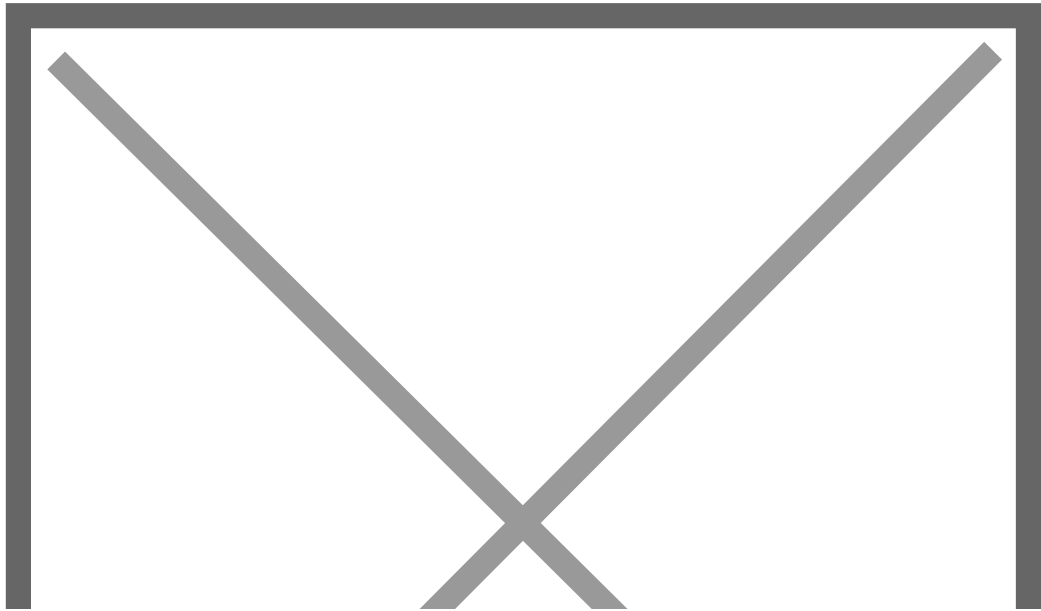

5.

Again click on 'Next'

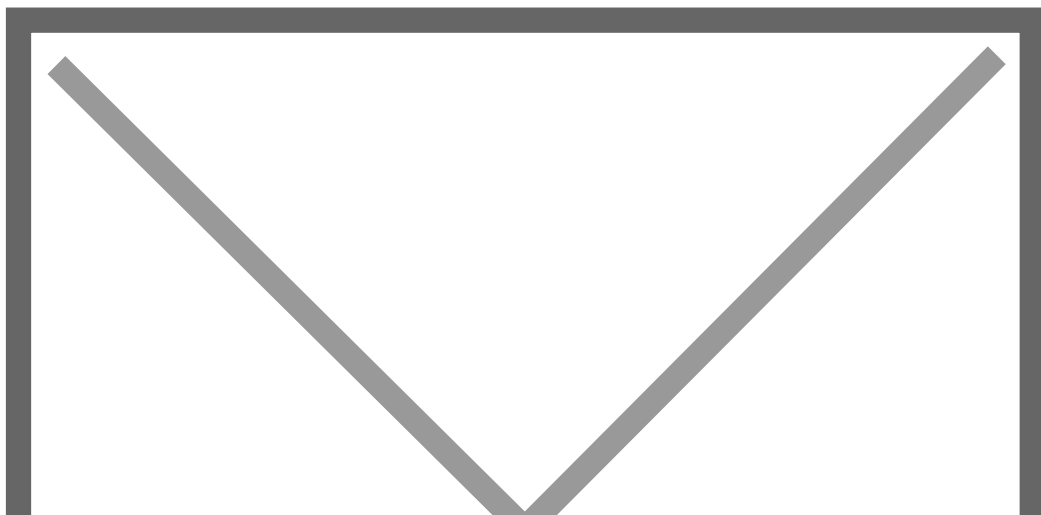

6.

Click on 'Yes'.

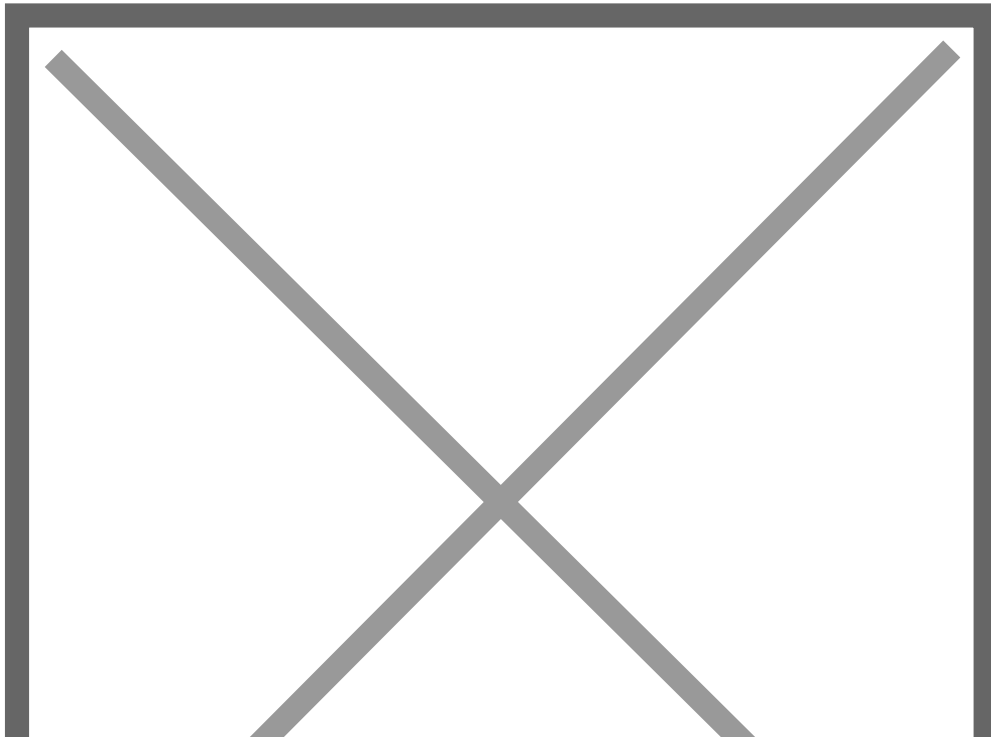

7.
Fill this form

8.
In the final step check mark on the radio button 'Master/Slave' after this check mark on the radio button 'Discover master host automatically'

And finally, click on 'close'.
